

ADI GOLDSTONE

OVERVIEW

Second-year Economics and Data Science student at Reichman University (97.5 GPA, Dean's List) with over three years of real-world data analytics experience spanning the IDF and a Tel Aviv startup – bridging the gap between raw data and real business decisions. Currently seeking a student position where rigorous analytical thinking and strong problem-solving drive real business impact.

- Native English speaker with British and Israeli passports
- Participated and presented at the Gamechangers hackathon at NYU in Summer 2025

EXPERIENCE

Data Analyst

- Worklik - Bnei Brak Sep 2023 - May 2024
- Recruited as the first and sole data analyst at an early-stage startup, building the company's entire data infrastructure from the ground up with no existing framework.
 - Identified and structured all company data, delivering a centralised system that transformed the organisation into a data-driven one.
 - Surfaced key commercial insights and presented findings company-wide, directly informing strategic decisions at executive level

- Key Project**
- Designed and deployed interactive Power BI dashboards used daily across 4–5 teams to track KPIs, monitor performance and identify future growth opportunities

- IDF - Human Resources - Business Intelligence Team - Dec 2020 - Aug 2023
- Led a team of 4–5 analysts, providing hands-on mentorship and technical guidance that measurably improved team output and cohesion
 - Recognised with an Excellence Award for outstanding performance and delivery on high-stakes analytical projects
 - Built end-to-end data pipelines using SQL, Python, Excel and Power BI, extracting and transforming data from multiple sources to drive major changes.

- Key Project**
- Delivered a large-scale statistical forecasting analysis across key population sectors, directly improving the IDF's recruitment effectiveness at a national level

Private Maths Tutoring Business

- 2019 - Present
- Founded and scaled an independent tutoring business to 50+ students, teaching mathematics at bagrut level in both English and Hebrew
 - Achieved a 100% bagrut pass rate across all students, consistently pushing each individual beyond their own expectations

EDUCATION

BA in Economics and Entrepreneurship with Data Science

Reichman University

2024-2027

- Top of the Dean's List, 97.5 GPA — highest in the year
- A member of the prestigious ASE Honours Class of 2027 for high-achieving students.
- Elected class representative, leading the class and taking initiative to represent student interests and bridging communication between students and faculty.
- Participated in many extra curricular activities such as the Consulting club, IGI investment group, Gamechangers hackathon and the 1% club TV show.
